

JOB DESCRIPTION

CITY OF PRIEST RIVER WATER TREATMENT PLANT OPERATOR PUBLIC WORKS

GENERAL STATEMENT OF DUTIES

Under supervision of the Lead Treatment Plant Operator, the Water Treatment Plant Operator is responsible for the day to day operation of the water treatment plant and may be called upon to substitute for the Lead Treatment Plant Operator in their absence.

A WTP Operator will perform frequently strenuous work for extended periods of time and must be able to work outdoors in all types of weather conditions. WTP Operators are subject to callbacks during emergencies and must work weekends on a rotating basis.

To be hired or promoted as a WTP Operator grade 13 or above requires satisfactory completion of testing in specialized areas of skills, knowledge, and abilities.

SUPERVISION RECEIVED

WTP Operators work under the general supervision of the Lead Treatment Plant Operator and the Public Works Supervisor.

ESSENTIAL DUTIES

- Performs all standard water treatment operations such as, but not limited to, sample collection, equipment maintenance, plant grounds up-keep, chemical preparation, and operational adjustments to the treatment process.
- Performs water testing such as, but not limited to, pH, turbidity measurements, jar testing, chlorine residual, and temperature
- Keeps records and writes reports regarding water treatment.
- During emergencies, works with Maintenance Workers in making repairs to broken water and sewer lines, unblocking plugged sewer lines and storm drain facilities, plowing and sanding streets.
- Other duties as assigned.
